1 Introduction

The American Heart Association (AHA) is dedicated to saving more lives through research, training, and education designed and owned by the AHA. CPRverify is a web-based application designed specifically to support AHA training internationally. The Instructor Network serves the same purpose within the United States.

These applications make it possible for Training Centers and instructors to monitor and track their AHA training, including publishing classes for students to sign up for, managing student rosters, and many other functions. They also provide the ability for managing Training Center alignments and permission.

Currently, the 2 applications are separate to cater to different geographies, either within USA or outside of USA. Atlas is a reimagined solution that caters to the global market. This digital platform is available to the AHA Training Network, including Training Centers, Sites, Instructors, and students who are located anywhere in the world, working together to make a difference and save more lives.

2 Purpose

The purpose of Atlas is to provide a single application for all audiences across the world. This document has been created to help ensure a smooth onboarding journey, focusing on the different capabilities within the Atlas application, and will serve as an instructional guide for users to successfully navigate and perform various application functions within the system.

3 Intended Audience

• The intended audience includes Training Center Coordinators (TCCs), Training Center Administrators (TCAs), Training Site Coordinators (TSCs), Training Site Administrators (TSAs), Training Faculty, instructors, and students.

4 Abbreviations and Descriptions

| Abbreviation | Description |
|--------------|-------------------------------|
| АНА | American Heart Association |
| SSO | Single Sign-on |
| ТСА | Training Center Administrator |
| тсс | Training Center Coordinator |
| TSA | Training Site Administrator |
| TSC | Training Site Coordinator |

5 My Account

Atlas will use the AHA's Single Sign-on (SSO), and users will need to create their SSO profile if they do not already have one.

Note: Users with both an Instructor Network and CPRverify account must ensure that their login email is the same on both platforms.

What does this mean for instructors and TCCs?

- Information and data will be transferred over from CPRverify.org and the Instructor Network.
- eCard inventory will be available on the AHA eCard portal after the Atlas launch.
- All new users should navigate to the Atlas application at https://atlas.heart.org to register.

What does this mean for students?

- Basic student features of claiming an eCard will continue to be in the AHA eCard Portal.
- Students who access the Instructor Network or CPRverify will be redirected to the Atlas platform to create their profile.
- Students will be able to search for public classes in Atlas.

What do you need to do?

If you have both an Instructor Network and CPRverify account, please ensure that the login email is the same for both.

5.1 Sign in/Sign up

All new users should navigate to the Atlas application at https://atlas.heart.org to sign in or create an account.

• Begin by selecting the Sign in/Sign up link located in the top right corner of the homepage (Figure 1).

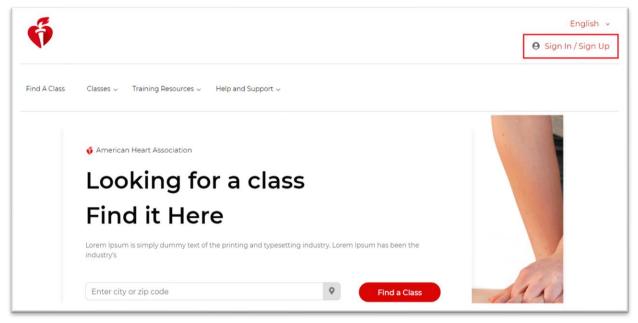

Figure 1. Sign in/Sign up link.

• Users will be redirected to the Sign in or Create an Account page (Figure 2).

| American Herr Association. | | | Get Involved \sim |

| | Create an account | | |

Figure 2. Sign in or Create an Account page.

EXISTING USER: SIGN IN

- Users with an existing AHA SSO account may use their login information to sign in.
- Users should complete the **Username/Email** and **Password** fields and then select the **Sign in** button (Figure 3).

| Sign In or Create an Account indicates a required field | |
|--|--|
| Sign In Username / Email: abc@laerdal.com | Or sign in with your social accounts: |

| Password: Forgot Password ? | Twitter Microsoft Yahoo |
| Remember me | |

Figure 4. Sign in error display.

• An existing user may also sign in with their social accounts like Google, Facebook, LinkedIn, Twitter, and others (Figure 5).

| Sign In or Create an Account indicates a required field | |
|--|--|
| Sign In Username / Email: [*] | Or sign in with your social accounts: |
| Password: | Twitter |
| Forgot Password ? | |
| Sign In | |

- Existing SSO users may also be prompted to provide **additional information** with pop-ups after successfully logging in if they have not previously provided those details. Those pop-ups may include
 - Choose your country of lawful residence
 - Complete your registration

Choose Your Country of Lawful Residence

• The **Choose your country of lawful residence** pop-up requires that users select the country where they currently live from the options provided in the drop-down menu (Figure 6). This is a mandatory field.

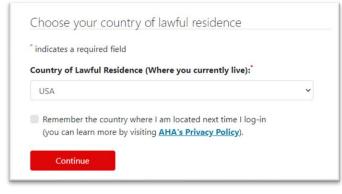

Figure 6. Choose your country of lawful residence pop-up.

- Users have the option of checking the box next to the statement "**Remember the country where I am located next time I log in**" or selecting **Continue** without checking the box.
 - Not checking the box results in users having to manually select their country of lawful residence at each subsequent log-in.
- Once done, select **Continue** to close the pop-up.

Complete Your Registration

- The **Complete Your Registration** pop-up asks that users provide their mobile number to help verify their account and keep it safe. This is optional and may be skipped.
- If users would like to provide their mobile number, they may type it into the text box and select **Save Changes** to close the pop-up (Figure 7).
- If users do not wish to provide their mobile number, they may select **Skip**.

| * indicates a required f | iber current so we can verify your account and keep it safe. eld |
|--------------------------|--|
| Mobile Number: | |

| | |

• If users choose Skip, the system will display an additional Confirm Skip pop-up with 3 options (Figure 8):

- Close
- Don't Ask Again
- Skip for Now

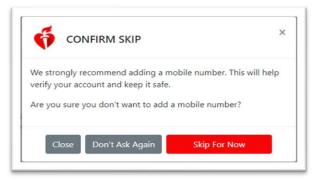

Figure 8. Confirm Skip screen.

• Users may close the pop-up by selecting one of the 3 options or the X in the top right corner of the screen.

NEW USER: CREATE AN ACCOUNT

• New users without an existing AHA SSO account may navigate to the **New User** section and select the **Create an account** button (Figure 9).

| | Sign In | | | | | | |
| Choose File No file chosen | | | | | | | |

Figure 10. New User account page.

- New users must complete all mandatory fields (indicated with an asterisk) as follows:
 - First name
 - o Last name
 - Email/Confirmation
 - Password/Confirmation
 - Acknowledgement of the Terms of Use and Privacy Policy
- Optional fields include
 - o Mobile Number
 - o Profile Image

Next, users must acknowledge the terms of use and privacy policy by checking the box next to the "I have read and understood the Terms of Use and Privacy Policy" statement and then selecting Continue.

• Once users have successfully signed in or created an AHA SSO account, they will automatically be redirected to their Atlas Dashboard (or whatever Atlas page the user was attempting to access), as shown in Figure 11.

5.2 Additional Information

Because Atlas is a new application, the system will need to capture a few additional pieces of information to fully function as designed.

- All users accessing the Atlas application for the first time will be shown an **Additional Information** popup (Figure 12). The mandatory **Additional Information** fields are
 - Preferred Language
 - Country
 - Time Zone
 - Notification Preferences selection
 - Subscription selection
 - Acceptance of Terms and Conditions

| é | Additional Information | English 🗸 |

| | Notification Preferences * | View Edit > |
| Lashboard | ✓ Email | |
| 🔳 User Profile | Subscription | |
| My Classes | Send me Communication about AHA training | |

Figure 12. Additional Information pop-up.

• Users must also acknowledge the **Terms and Conditions** by checking the box next to the "**I have read and understood the Terms and Conditions**" statement and then selecting **Continue** (Figure 13).

| User Profile | Terms and Conditions * | |
|--------------------------------|--|--|
| My Classes Proof Of Comple | I have read and understood the <u>Terms and Conditions</u> Cancel and Logout Submit | |

Figure 13. Sign In: Terms and Conditions Acceptance Screen.

• This process successfully completes the Atlas registration process.

5.3 Password Reset

Users with an existing AHA SSO account may use the **Forgot Password** link on the **Sign in or Create an Account** page to reset their password.

• First, users should select the Forgot Password? link, located in the Sign in section (Figure 14).

| Sign In or Create an Accou indicates a required field | nt |
|--|---------------------------------------|
| Sign In Username / Email:" | Or sign in with your social accounts: |
| Password:* | Y Twitter |
| Forgot Password ? | ORCID |
| Remember me | |
| Sign In | |

Figure 14. Forgot Password? link.

- Users will then be redirected to the Forgot Password page (Figure 15), where they must complete the required fields, as follows:
 - \circ Type the applicable email address into the Email text box
 - Select an option from the list, in answer to the How do you want to reset your password? question. Those options are
 - Reset password via email
 - Reset password via security questions
 - Reset password via mobile number on your account
 - Select the **Reset Password** button (Figure 15).

| | Forgot Password | _ |
|--------|---|---|
| | Please enter your email address to reset your password: | |
| | [*] indicates a required field | |
| | Email: | M |
| | abc@laerdal.com | |
| \sim | How do you want to reset your password?" | |
| 2 | Reset password via email. | |
| | O Reset password via security questions. | |
| | O Reset password via mobile number on your account. | |
| | Reset Password Cancel | |

• After selecting the **Reset Password** button, a pop-up will appear confirming the reset password request and selected method for doing so. To close the pop-up and navigate **Back to Sign in**, select the button as shown in Figure 16.

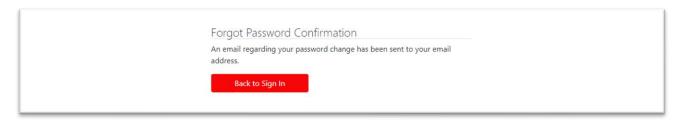

Figure 16. Forgot Password Confirmation page.

- If the user has previously completed security questions or provided their mobile number through the **Security Settings** link (available on the **Profile Information** edit page), then—during password reset—the user may select the **Reset Password via security questions** or **Reset password via mobile number on your account** options successfully.
- If the user has not previously completed security questions, then selecting **Reset password via security questions** displays an error message as shown in Figure 17.

| Forgot Password | _ |
|---|---|
| We are unable to find Security Questions for this profile.Please reset your password via email. | 4 |
| Please enter your email address to reset your password: | |

| Reset password via mobile number on your account. | |
| Reset Password Cancel | |

Figure 18. Reset password via mobile number error message.

• If the user successfully chose the **Reset password via email** method, they should receive an email containing a Reset Password link, at the email address provided (Figure 19).

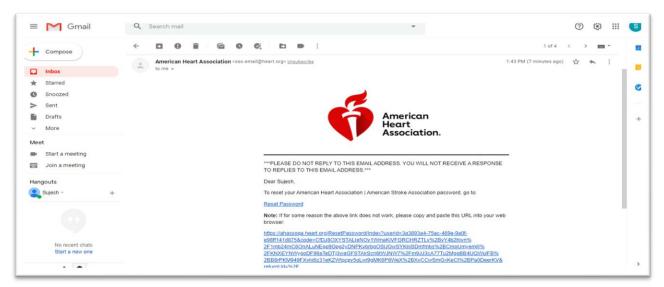

Figure 19. Sample email link to reset password.

- When users select the **Reset Password** link, they will be directed to the **Reset Password** page.
- Users should then complete the New Password and Reenter New Password fields and select the Submit button (Figure 20).
 - Care should be taken to follow the password guidelines, which are as follows:
 - At least seven characters, including
 - An uppercase letter
 - A lowercase letter
 - A number

| Reset Password Please enter a new password * indicates a required field | |
|--|----------------------|
| New Password: Make it at least seven characters with the following: An uppercase letter, a | lowercase letter and |
| a number. | |
| Re-enter New Password: | |
| Submit Back to Sign In | |

Figure 20. Reset Password screen.

• After users select the **Submit** button, a pop-up will appear confirming that the **Reset Password** request was successful. To close the pop-up, users should select the **Back to Sign in** button (Figure 21).

| Reset Password Success | |

Figure 42. Inbox drop-down menu options.

Note: All actions that result in a status change to the record (Mark All as Read, Mark as Read, Mark as Unread, and View) result in the email record either appearing to be highlighted or not highlighted in the list grid (Figure 47).

- Records that appear highlighted indicate a status of Unread.
- Records that do not appear highlighted indicate a status of **Read**.

Additionally, all read/unread actions result in the opposite action immediately becoming available to users.
